

MM9

Welcome to the dimension of cleaning 4.0!

 **FIMAP**[®]

MMg

Quality you can see for yourself: a design that's a pleasure to look at, which accentuates every single detail

The precisely defined forms of the front give the machine a decisive character exuding an impression of unrivalled robustness.

Taking pride of place at the lower part of the front is an elegant, elongated front fascia between 2 LED headlights creating a boldly expressive look.

The clean, flowing lines continue to the rear of the machine, lending a sense of dynamism to the whole and underscoring the exclusiveness and attention to detail of the design.

The design is complemented to perfection by materials selected and used according to the most exacting standards, making a bold visual statement that expresses the essence and extraordinary quality of this machine.

A painstaking development and design process gave shape to a machine body that encompasses and protects all the mechanical parts of the machine, covering and shielding them against damage from accidental impact

This maximizes the durability of the components, keeping the value of the machine itself high over time

The entire outer structure is made from robust and sturdy high density polyethylene

Any minor knocks during use are absorbed completely by the integrated bumpers

The rounded design of the body protects the machine and keeps the value of your investment over time

The low centre of gravity ensures outstanding stability when working and manoeuvring, even in bends or when climbing ramps

The compact height facilitates access to the tanks, making maintenance easier and more practical

MMg

COMFORT

Padded in soft material, the seat boasts ergonomic forms offering effective back support and also features forwards and backwards adjustment. This equates to a stress-free experience for the operator, who can work for hours on end without any effort

Boasting FNC and Eco Mode technology, the MMg can also work extremely quietly when needed, to safeguard the health of the operator and of any people nearby

YELLOW COLOUR-CODED PARTS

Parts which must be cleaned regularly at the end of every shift are colour coded in yellow for easy identification, saving time and making sure that your scrubbing machine is kept in perfect condition at all times

Ergonomic forms optimized for total freedom of movement and maximized operator comfort

The lateral paddles offer the operator even greater control over the machine, for total peace of mind and a comfortable, safe driving experience

The design of the front maximizes the room for the legs and brings the steering wheel closer to the operator, making the machine even more comfortable to use

The footrest zone is designed to offer impressive space for the feet despite the compact dimensions of the machine

The lowered footboard facilitates access from both sides and allows the operator sit easily without any efforts

PERFORMANCE AND PRODUCTIVITY

POWER MODE

When more scrubbing power is needed, activating Power Mode increases the delivery rate of detergent solution and boosts brush pressure and vacuum power for the time necessary to tackle heavy duty cleaning

"ZONE" PERSONALIZED CLEANING PROGRAMS

To ensure the desired cleaning results in all conditions and prevent the risk of tampering, the site supervisor can save a number of separate configurations with specific cleaning parameters for different work environments. The operator simply has to select the zone to be cleaned, and the machine is configured automatically with all the right settings

REAR VIEW CAMERA

Lets the operator monitor cleaning results in real time from the display, without taking his or her eyes off the direction of travel

A LATERAL BRUSH FOR EVEN MORE GREATER PRODUCTIVITY

The third brush moves laterally to facilitate cleaning along walls or shelves, increasing productivity by up to 15%

The strengths of the MMg behind its extraordinary performance

3-stage vacuum motor
Effective vacuum system which leaves the floor dry with no risk of slipping

FLR-FIMAP LONG RANGE
Increases productivity by up to 70%

Great autonomy
Work for up to 5 hours non-stop

Light steering for even more operator comfort

The dual front wheel reduces the specific pressure exerted on the floor, making the steering action lighter. This solution also increases manoeuvrability and prevents marking, even on the most delicate floors

Up to 100 Kg of pressure

With a brush pressure settable to up to 100 Kg, the machine can tackle even the most stubborn dirt

Outstanding performance in any situation

MMg is capable of climbing ramps up to 18%. A special electronic control modulates power precisely, allowing the machine to climb ramps easily and smoothly, with no interruption or loss of power delivery

RAMP UP

Save time by working faster

Up to 6 Km/h in work mode and 8 Km/h in transfer mode

The anti-collision system detects obstacles when reversing, helping the operator work in complete safety and protecting the machine

ANTI-COLLISION SYSTEM

Facilitates manoeuvres in reverse by detecting obstacles

REAR VIEW CAMERA

By pressing a single button the machine stops immediately

EMERGENCY STOP

Front and rear LED headlights maximize work safety in all conditions

LED HEADLIGHTS

The steering wheel controls offer the operator even greater control when cleaning, and also improve safety by eliminating distractions and letting the operator keep his or her eyes on the zone ahead of the machine

STEERING WHEEL CONTROLS

Safety is paramount

The MMg is equipped with a host of safety systems and features to keep the operator in complete control at all times and work with total peace of mind

REAR HEADLIGHTS

FRONT HEADLIGHTS

On the road to accident-free cleaning

Maintains a constant speed when driving downhill, and prevents sudden increases in speed caused by gravity

DESCENT
CONTROL

The traction control system, which brakes and holds the machine when the accelerator pedal is released, provides assistance for both uphill and downhill gradients

STOP&GO

Control device letting the operator set the required speed

CRUISE
CONTROL

Any questions? MMg has all the answers, with tutorials to help the operator in every aspect of the job

CONNECTIVITY

Discover the FFM universe and experience the advantages of being constantly connected, with My.Machine app!

My.Machine

FIMAP FLEET MANAGEMENT

Watch the video

Developing new technology to improve efficiency is one of the core missions of Fimap.

An example of this is FFM, the Fimap Fleet Management system which collects the data sent by the machines and transforms it into valuable information accessible to you easily in real time, 24/7, from your smartphone, through the app My.Machine.

Being constantly connected to your machines will help you operate them even more efficiently and effectively. My.Machine lets you know where the machines are, if the operation is being

carried out according to plans and at the scheduled time.

The machines health status is constantly monitored. In the very unlikely event of a breakdown, you'll receive an alert notification directly on your smartphone, allowing you to take action promptly and immediately call the technical support.

You can check the battery conditions and the quality of the charges in order to optimize battery endurance and life cycle.

Keep tabs on your machines remotely when you want and from wherever you want!

GEOLOCALISATION

You know where your machines are

USAGE INFORMATION

You know how your machines are used

HEALTH STATUS

You know the health status of machines and batteries

ENVIRONMENTAL IMPACT

You can check the machine consumption per intervention

MMg

ENVIRONMENT

Fimap sustainable technologies contribute to protecting the environment and also encourage and help the user to use resources responsibly, offering many advantages.

Advanced technological solutions offer a reduction in cost per sq.m. cleaned, more working autonomy, time savings and better cleaning results, letting you cover more surface area with the same resources.

The Eco Mode function helps prevent water, detergent and energy consumption by using only the quantities you need and nothing more

START&STOP

When the machine is idle, the brush motor, the vacuum motor, the traction and detergent pump will turn off automatically, reducing costs and emissions.

All the functions are reactivated automatically as soon as the operator touches the accelerator again

WATER

FLR-FIMAP LONG RANGE

Reduces water and detergent consumption per cleaning operation by up to 66%*. This is a system which recycles detergent solution to increase autonomy: to scrub more sq.m. while using less resources

FSS-FIMAP SOLUTION SAVER

Water and detergent quantities are separately dosed, reducing consumption by up to 50%

FWF-FIMAP WATER FLOW

Ensures uniform cleaning results across the entire working width on the first pass, optimising detergent solution consumption

ENERGY

FES-FIMAP ENERGY SAVER

Reduces energy consumption by up to 35%

LED TECHNOLOGY

Up to 80% lower energy consumption than conventional headlights. The LED headlights consume much less energy than conventional headlights, offer a longer lifespan and illuminate with a brilliant white light similar to natural daylight

NOISE LEVELS

FNC-FIMAP NOISE CANCELLING

Reduces sound pressure

*Saving calculated on a triple recycling cycle

An extensive choice of configurations to give you the best performance possible in all conditions, on any floor, with any type of dirt and in any environment

DISC
with 2 disc brushes or
2 pad holders

CYLINDRICAL
with 2 cylindrical brushes and a debris
hopper for small sized solid debris

ORBITAL
With pad

A solution for any requirement

MMg

AVAILABLE IN 2 VERSIONS

Basic

PLUS

OPTIONALS AND ACCESSORIES

OPTIONALS

The exclusive lights pack offers increased visibility of the parts which could require operator inspection, illuminating the relative zones with LED lights

Front and rear LED headlights kit

On-board battery charger for quicker, more convenient charging

The third lateral brush increases cleaning performance along walls (available for MMg disc versions)

Rear/front super elastic wheels kit, for minimal vibration and increased comfort

Side splash guards kit for increased drying performances in narrow bends

ACCESSORIES

A wide choice of disc or cylindrical brushes in PPL is offered, available in thicknesses from 0.3 to 0.9 cm. These offer the perfect solution for dealing with any type of dirt on any floor

Abrasive brushes:

Ideal for heavy duty cleaning on industrial surfaces

Pads

BLACK

Superior abrasiveness for rapid and thorough heavy duty cleaning

GREEN

Ideal for removing dirt from more delicate floors (rubber or linoleum)

RED

Ideal for scrubbing delicate or treated floors, and achieving an instant shine

Rear squeegee rubber blades

33 SHORE (PARA)

For maintenance cleaning of smooth floors

40 SHORE (PARA)

For stubborn dirt on floors with joints

POLYURETHANE

For heavy duty cleaning on industrial floors, even with wide gaps

FIMAP LIFE

Your best investment in cleaning

The service package that gives you more of what you need for less than you think!
We want you to deal only with your work, leave everything else to Fimap Life!

FIMAP INTELLIGENCE

Using powerful software, unique of its kind, and on-site advice, Fimap supports you in choosing the ideal model and its optimum configuration, according to the type of environment to be cleaned and your requirements.

FIMAP FINANCE

Fimap offers various financial solutions that can be adapted perfectly to your business.

FIMAP MAINTENANCE

With Fimap Maintenance will not have to worry about maintenance of the product: your Fimap machines will always be as new and ready for use. Choose from the three Service Packs offered - Light, Smart or Full - to suit the needs of your job.

FIMAP FLEET MANAGEMENT

An online software collects the data sent by the machines and transforms it into valuable information that will help you dramatically improve the quality of the service offered. In this way you can optimize the use of your fleet taking into account the actual availability and eliminate wasted time.

FIMAP NETWORK

Fimap is always there for you: our global network of certified dealers guarantees a rapid response support service, wherever you are.

FIMAP ACADEMY

In a market that is becoming more and more competitive, Fimap offers a new support service for cleaning contractors, a growth opportunity for the professionals of today and tomorrow. This dedicated training program addresses various subjects that are relevant for the daily requirements of customers.
